

PHẠM PHÚC THỊNH

UNITY DEVELOPER

Phone: 0772459901

Email: phuccthiinh@gmail.com

Address: Hochiminh City

OBJECTIVE

Game Developer specializing in Unity Engine, with experience in developing Puzzle and Casual games. Seeking to further strengthen my technical expertise and game development skills, with the long-term goal of becoming a Senior Game Developer and contributing to the development of high-quality games.

WORK EXPERIENCE

Amanotes (10/2025 - Present)

Unity Developer

- Developed puzzle games that blend music elements into core gameplay
- Designed and built gameplay modules to accelerate puzzle-game development.
- Integrated AI tools into development workflows to improve productivity and streamline development processes.
- Worked with Android and iOS SDKs to integrate and maintain mobile platform features.

Wejoy Games Studio (08/2023 - 10/2025)

Unity Developer

- Developed and published 10+ hyper-casual and puzzle games for mobile platforms.
- Owned features end-to-end, from prototyping through store deployment.
- Built and maintained in-house Unity tools to improve team productivity.
- Mentored interns on coding standards, best practices, and Unity workflows.

GadGame (04/2022 - 08/2023)

Unity Developer

- Developed games across Infinite Runner, Rhythm, and Casual genres, publishing 2 titles.
- Owned core gameplay implementation, performance optimization, and bug fixing.
- Collaborated with design and production teams to meet timelines and quality standards

SKILLS

- Unity Engine
- C#
- Git Flow
- AI-assisted Development
- Game Performance Optimization
- Game Asset Management
- Third-party SDK Integration
